

I-405 - NE 6th to I-5 Widening and Express Toll Lanes *NE 160th Street braided ramp configuration*

This braided ramp system between NE 160th Street and the SR 522 interchanges in Bothell is designed to improve traffic by separating vehicles traveling onto SR 522 from northbound I-405, and vehicles traveling onto northbound I-405 from NE 160th Street, this will eliminate weaving and provide more efficient access to and from I-405. The braided ramp system is scheduled to open in 2015.
